Ohio River Valley
Algae Symposium
www.caer.uky.edu/biofuels/2009algae.html

Organized by the University of Kentucky
Center for Applied Energy Research and Ohio University

This symposium will provide a forum for discussing advances in the use of algae for CO₂ capture and biofuels production. There will be three sessions dealing with research; industrial/commercialization issues; and policy issues related to CO₂ capture and sequestration.

Call for Papers
Persons interested in presenting at the symposium are asked to contact the program organizers:
Dr. Mark Crocker at crocker@caer.uky.edu or t. 859.257.0295
Dr. Ben Stuart at stuart@ohio.edu or t. 740.593.9455

In addition to oral presentations, poster submissions are encouraged.

August Wed. 12 & Thurs. 13, 2009
