

# PROJECT FACTS

UNIVERSITY OF KENTUCKY CENTER FOR APPLIED ENERGY RESEARCH

## PARTICIPANTS

UK Center for Applied Energy  
Research  
2540 Research Park Dr.  
Lexington, KY 40511  
10/10/2005

## CONTACTS

Darrell Taulbee, Ph.D.  
Industrial Support  
Coordinator

Gerald Thomas,  
Analytical Section Head  
UK CAER  
2540 Research Park Dr.  
Lexington, KY 40511  
[Taulbee@caer.uky.edu](mailto:Taulbee@caer.uky.edu)

## TECHNICAL/INDUSTRIAL SERVICES

### Analytical Services and Industrial Support

Since 1997, the CAER has offered a highly-successful Industrial Support Program whose objective is to make the advanced analytical and research equipment housed at the CAER more accessible to industrial, academic, and governmental entities.

CAER's industrial services include difficult-to-obtain analytical testing, assistance with technical problem solving, and longer-term collaborative research. The Industrial Support Coordinator is a single point-of-contact who evaluates a given problem, recommends a course of action, and ensures the job is finished properly and quickly. Since its inception, more than 1,200 requests have been completed and the program has served to create an expanded pool of industrial partners for joint proposals and mutually beneficial collaborations.

The [Analytical Laboratory](#) offers a variety of services from analytical chemistry to materials testing. Chemists and technicians use the latest techniques and state-of-the-art analytical instruments for quick and accurate solutions.

For specific information on analytical services available and the equipment housed at CAER, go to our web site at:

<http://www.caer.uky.edu/services/techservices.shtml>.
