Pace Synthetic Fuels Report is published by The Pace Consultants Inc. as a multi-client service and is intended for the sole use of the clients or organizations affiliated with clients by virtue of a relationship equivalent to 51 percent or greater ownership. Pace Synthetic Fuels Report is protected by the copyright laws of the United States; reproduction of any part of the publication requires the express permission of The Pace Consultants Inc.

The Pace Consultants Inc. has provided energy consulting and engineering services since 1955. The company's experience includes resource evaluation, process development and design, systems planning, marketing studies, licensor comparisons, environmental planning, and economic analysis. The Synthetic Fuels Analysis group prepares a variety of periodic and other reports analyzing developments in the energy field.
CONTENTS

HIGHLIGHTS

I. GENERAL

CORPORATIONS
Alberta Research Council Describes Programs in Oil Sands and Coal
Global Methanol Association Proposed

GOVERNMENT
Department of Energy and Kentucky Sign Fossil Fuel Agreement

ENERGY POLICY AND FORECASTS
EIA Projects An Increasing Dependence on Oil and Gas for Electric Power
New Chevron Outlook Puts Synfuels Further Into Future

ECONOMICS
Economics for Alternative Fuels Show Oil Shale and Tar Sands Advantages

TECHNOLOGY
Hydrogen Research May be Due for Revival
Biological Conversion of Synthesis Gas to Methane is Possible

INTERNATIONAL
RAPAD Reports on Energy Research Program

ENVIRONMENT
New Diesel Emission Standards May Promote Use of Methanol
National Acid Precipitation Report Generates Controversy

RECENT GENERAL PUBLICATIONS/PATENTS

COMING EVENTS
II. OIL SHALE

PROJECT ACTIVITIES

Petrosix Plant Gets New Data System
Unocal Shipments Near Half Million Barrels
Ramex Pilot Program Successful

CORPORATIONS

New Paráho Corporation Announces Loss for Year
SPP/CPM Report Continuing Oil Shale Activities
Cliffs Engineering to Close

GOVERNMENT

Indiana to Test Shale Oil Asphalt

ENERGY POLICY AND FORECASTS

Government Leadership Required for Oil Shale Says Vawter

TECHNOLOGY

Bureau of Mines Describes Exhaust System for Diesels in Oil Shale Mines
CSIRO Patents Oil Shale Retorting Process
Gasification of Eastern Oil Shale in Fluidized Bed Reported by IGT
Mobil Patents Solvent Retorting Process

INTERNATIONAL

Brazil's Petrobras/Six Opens Patent Exhibit and Develops New Projects
Kerogen Structure Studied in Colorado, Yugoslavia, Brazil and Scotland Shales
Pyrolysis Kinetics for Yugoslavia, North Korea and Estonia Shales Determined
Solid Phase Analytical Techniques Developed for Brazilian Oil Shales
Electrolytic Oxidation and Ultrasonic Energy Dissociate Stuart Oil Shale

ENVIRONMENT

Interior Department Determines Toad-Flax Cress to be Endangered Species
Waste Waters From Oil Shale Beneficiation Process Characterized

WATER

Fish and Wildlife Service Proposes Relocating Colorado Squawfish

RESOURCE

Oil Shale Activities on Utah State Lands Noted
Senate Committee Considers Oil Shale Claims Legislation
Tosco to Exercise Option to Purchase Oil Shale Property

RECENT OIL SHALE PUBLICATIONS/PATENTS

STATUS OF OIL SHALE PROJECTS

INDEX OF COMPANY INTERESTS
III. OIL SANDS

PROJECT ACTIVITIES

Wolf Lake 2 Contract Awarded to Fluor 3-1
Suncor Plans 10,000 Barrel Per Day Expansion 3-1
Shell Plans 40,000 Barrel Per Day Expansion at Peace River 3-2
Suncor Plant to be Out of Commission Until April 3-2
Newgrade Upgrader Project Hits Peak Employment Phase 3-2
Sceptre Resources Kicks Off Tangleflags North Project 3-3
AOSTRA Publishes Survey of Heavy Oil and Oil Sands Projects 3-6

CORPORATIONS

Working Group on Laboratory Standards for Tar Sands Holds Meeting 3-8
Suncor and Syncrude Results Released 3-9
Gulf Canada Notes Continued Opportunities in Oil Sands 3-10
Maxwell Partnership to Mine Utah Tar Sands 3-11
Alberta Energy Reports Increased Heavy Oil Pipeline Flows 3-11
Dome Accepts Takeover Bid by Amoco 3-11

GOVERNMENT

DOE Small Business Innovation Program Issues Tar Sands Solicitation 3-12

ENERGY POLICY & FORECASTS

Shortage of Refining Capacity for Canadian Heavy Oil and Bitumen Predicted 3-14

ECONOMICS

Economics of Downhole Steam Generators Depend on Flue Gas Benefits 3-17
SUPRI Compares Economics of In Situ Combustion with Steam Injection 3-20

TECHNOLOGY

Bitumen From Tar Sands Could Make Superior Road Asphalt 3-22
Chevron Patents Tar Sands Extraction Process 3-25
Bureau of Mines Reviews Borehole Slurry Mining for Oil Sands 3-28
Electrical Preheat Promising for In Situ Oil Sands Recovery 3-31

INTERNATIONAL

Pyrosoil Process Promising for Coprocessing 3-35

ENVIRONMENT

Oleophilic Sieve Development Proposes Sludge Recovery 3-37

RECENT OIL SANDS PUBLICATIONS/PATENTS

3-40

STATUS OF OIL SANDS PROJECTS

3-42

INDEX OF COMPANY INTERESTS

3-63
IV. COAL

PROJECT ACTIVITIES

Sasol Weathers Oil Price Drop in Good Shape 4-1
Appalachian Project Wins Government Funding 4-3
Dow Syngas Experiences Smooth Startup 4-5
Great Plains Undertaking Byproducts Recovery Program 4-7
Shell Coal Gasification Plant Achieves Design Capacity Two Days After Startup 4-8
Thirteen Organizations Indicate Interest in Great Plains Plant 4-8

CORPORATIONS

Combustion Engineering Notes Activity in Fluidized Bed Combustors 4-9
Texaco to Study Hot Gas Sulfur Removal in Texaco Gasifier 4-9
 Battelle Wins DOE Funds for Multi-Solids Fluidized Gasifier 4-10
 Humphreys & Glasgow and Nykomb Offer New Process 4-10

GOVERNMENT

DOE Selects Firms to Study Cleaning Techniques for "Moderate Sulfur" Coals 4-11
DOE Awards Contracts for Mild Gasification Studies 4-12
DOE Issues Solicitation for Small Business Innovation Research 4-13
DOE Advisory Group Issues Recommendations for Coal Gasification Research 4-14
Wyoming Decides on Funding for Coal Projects 4-15
DOE Reaches Agreements on Clean Coal Projects 4-16

ENERGY POLICY AND FORECASTS

Chase Manhattan Sees Strong Growth in Chinese Coal Exports 4-20

ECONOMICS

KILnGAS Economics Show Long-Term Promise 4-22
LLNL Model Predicts UCG Economics 4-25

TECHNOLOGY

Catalytic Pyrolysis a New Direction for the Thermal Conversion of Coal 4-28
Mad Dog Cement Solves UCG Problems 4-30
Water/Hydrogen Sulfide Can be Donor Solvent for Coal Liquefaction 4-31
Voest-Alpine Process Gasifies Both Lump and Fine Coal 4-33

INTERNATIONAL

Occidental Opens Chinese Joint Venture Coal Mine 4-36
China May Require 100 Coal Gasification Projects 4-36
K2G Outlines German UCG Research Program 4-37
Japan's CRIEPI to Build Entrained Flow Gasifier in 1988 4-39
Status of German Gasification Technologies Reviewed 4-40
Carbocol Plans Coal Gasification Plant in Colombia 4-42

ENVIRONMENT

Dow Syngas Environmental Monitoring Proceeding Smoothly 4-44

RESOURCE

Court Upholds Powder River Lease Sale 4-46
Coal Association Objects to Land Exchange 4-46
Record of Decision Issued for San Juan River Coal Region 4-46
