Pace Synthetic Fuels Report is published by The Pace Consultants Inc., as a multi-client service and is intended for the sole use of the clients or organizations affiliated with clients by virtue of a relationship equivalent to 51 percent or greater ownership. Pace Synthetic Fuels Report is protected by the copyright laws of the United States; reproduction of any part of the publication requires the express permission of The Pace Consultants Inc.

The Pace Consultants Inc., has provided energy consulting and engineering services since 1955. The company's experience includes resource evaluation, process development and design, systems planning, marketing studies, licensor comparisons, environmental planning, and economic analysis. The Synthetic Fuels Analysis group prepares a variety of periodic and other reports analyzing developments in the energy field.
CONTENTS

HIGHLIGHTS

I. GENERAL

CORPORATIONS

Davy Buys Dravo Engineering
New Zealand Synfuels Plant May Sell Methanol
Tenneco Dismantles Its Oil and Gas Operations

GOVERNMENT

Alternative Motor Fuels Act of 1988 Becomes Law
DOT Develops Alternative Fuels Initiative
U.S. President-Elect to Raise Status of Science Staff

ENERGY POLICY AND FORECASTS

U.S. Petroleum Demand Reaches 8-Year High
GAO Report Acknowledges Potential Role of Synthetic Fuels
API Energy Security Paper Calls for Drastic Changes
Energy Policy of Reagan Administration Detailed in DOE Report

ECONOMICS

Energy Economists Debate Energy Effects and Futures

TECHNOLOGY

Radiation Promotes Solvent Extraction Processes
Advances in Methane Conversion Technology Said Possible

INTERNATIONAL

China's Oil Demand to Rise Faster Than Supply
Options Study Outlines Course of Canadian Energy
Materials and Energy Needs of Developing Countries to Dominate the Future

ENVIRONMENT

Adaptation to Carbon Dioxide Effect said Likely

RECENT GENERAL PUBLICATIONS/PATENTS

COMING EVENTS
II. OIL SHALE

PROJECT ACTIVITIES

Water-Jet-Assist Mechanical Mining Program Outlined for Oil Shale 2-1
Ramex Activity Continues in Indiana 2-4
Petrosix Continues Emphasis on Gas Production 2-4
Unocal Parachute Creek Project Approaches Break-Even 2-5
New Paraho Lays Out Development Plan for Shale Oil Asphalt 2-5

CORPORATIONS

Synfuels Engineering and Esocure to Reactivate TOSCO Retort 2-8

GOVERNMENT

DOE and Indiana Embark on Shale Oil Asphalt Program 2-9

TECHNOLOGY

Technology of Oil Shale Cement Reviewed 2-10
Chevron Patents Recycle Shale Conditioning Process 2-11
Solv-Ex Patents Oil Shale Extraction Process 2-13
Unocal Patents Shale Cooler 2-14
Addition of Olefin and Catalyst Improves Shale Oil Yield 2-16

INTERNATIONAL

German Study Shows Jordan Oil Shale Economical at $15 Per Barrel 2-19
Plant Growth Stimulators Developed From Shale Oil 2-20
New Upgrading Scheme Proposed for Pushun Shale Oil 2-20
Shale Oil Sludge Process Adopted for Refinery Use 2-22

WATER

Piceance Basin Water Rights Attract Bids 2-23
Indian Water Rights Settlement Clears Way for Colorado Water Project 2-23
Oil Shale Companies File Water Rights Applications 2-23

RESOURCE

Ute Tribe Imposes 10 Percent Severance Tax 2-27
Geokineticians, Magic Circle, Win Utah Shale Leases 2-27
BLM Starts Planning for Diamond Mountain Resource Area 2-28

SOCIOECONOMIC

Exxon to Sell Battlement Mesa 2-30
County Gives Unocal Tax Refund 2-30

RECENT OIL SHALE PUBLICATIONS/PATENTS

2-31

STATUS OF OIL SHALE PROJECTS

2-36

INDEX OF COMPANY INTERESTS

2-52
III. OIL SANDS

PROJECT ACTIVITIES

Shell Puts Peace River Expansion Project on Hold
Bi-Provincial Upgrader Project Breaks Ground
Tangleflags Begins Continuous Steam Injection
Syncrude CAP Surpasses Budget and Schedule Targets
Suncor Reports Record Production for Quarter
Illinois Oil Mining Project Reaches Pay Zone
Government Aid Approved for OSLO Project
Amoco Completes Elk Point Expansion
Esso Defers Cold Lake Expansion
Progress Reported at Underground Test Facility

CORPORATIONS

Hydrocarbon Mining Company Proposes Oil Mining Project
Solv-Ex Targets Byproduct Metals Recovery
ORS Pursue Applications in Europe

ENERGY POLICY & FORECASTS

Alberta Policy to Emphasize Upgrading

ECONOMICS

Fiscal Treatment has Influenced Oil Sands Development

TECHNOLOGY

Fracture Stimulation Unsuccessful in the GLISP Tar Sands Pilot
Amoco Patents Water Displacement Method for Extraction
BP Patents and Tests Borehole Mining Techniques
OSLO Optimistic on Borehole Hydraulic Mining
Natural Bitumens can Provide Multiple Product Slate

INTERNATIONAL

Economics of Heavy Oil in China and Canada Compared
USSR/Hungary Develop Downhole Steam Generator
China Targets 200,000 Barrels Per Day of Heavy Crude

ENVIRONMENT

Sludge Problem Reduced by Oleophilic Sieve Coprocessing

RESOURCE

USGS Analyzes Mineral Content of Natural Bitumen Deposits
BLM Issues Draft RMP/EIS for San Rafael Resource Area
Utah Lowers Royalty Rates on State Lands

RECENT OIL SANDS PUBLICATIONS/PATENTS

STATUS OF OIL SANDS PROJECTS

INDEX OF COMPANY INTERESTS
IV. COAL

PROJECT ACTIVITIES

Cool Water Plant Likely to Close  
Eastman Gasification Complex Averages 97% Onstream for 3-Year Period  
Basin Subsidiary Takes Possession of Great Plains

CORPORATIONS

IGT Steps Up Fuel Cell Research  
Kellogg to Study Hybrid Gasifier, Fluid Bed Combustor

GOVERNMENT

Western Participation Urged in Clean Coal Technology Program  
More Fuel Cell Work Under Way  
DOE Develops Gasification Desulfurization Sorbents  
DOE Selects 16 Winners in Round 2 Clean Coal Technology Program

ECONOMICS

Amoco LP Predicts $15 Million/Year Byproducts Profit at Great Plains  
Advances in Direct Liquefaction Would Compete with $25 Oil  
Mild Gasification of Coal to Offer Attractive Economics

TECHNOLOGY

Lurgi Develops CFB Coal Gasifier  
Coal Liquids May be Valuable as Asphalt Additives  
Advanced IGCC Concepts Analyzed

INTERNATIONAL

Greece Abandons Lignite Gasification Plan  
Mongolian Energy Center to Include Fertilizer from Coal  
Brasil Develops CIGAS Gasification Process  
Target Liquefaction Yields Achieved by NEDOL Process  
Sweden Drops Possibility of Coal Gasification Power Plant  
Dutch Utility Orders Gasification Study  
Joint Japanese/English Effort Develops MRS Process  
East German Pilot Plant Gasifies High Salt Coal  
Ammonia from Peat Plant to be Built in Finland

ENVIRONMENT

Pilot Tests Point to Partial Solutions for Great Plains Emissions  
Coal Gasifier Proposed for Hazardous Waste Destruction  
Cleanup of Old Utah Coal Gasification Site Under Way

RESOURCE

Interior to Share Interest on Late Royalties with States  
Interior Rule Affects Readjustment of Terms for Federal Coal Leases  
Powder River Regional Coal Team Meets  
China Faces Acute Coal Shortage

RECENT COAL PUBLICATIONS/PATENTS
