Pace Synthetic Fuels Report is published by The Pace Consultants Inc., as a multi-client service and is intended for the sole use of the clients or organizations affiliated with clients by virtue of a relationship equivalent to 51 percent or greater ownership. Pace Synthetic Fuels Report is protected by the copyright laws of the United States; reproduction of any part of the publication requires the express permission of The Pace Consultants Inc.

The Pace Consultants Inc., has provided energy consulting and engineering services since 1955. The company's experience includes resource evaluation, process development and design, systems planning, marketing studies, licensor comparisons, environmental planning, and economic analysis. The Synthetic Fuels Analysis group prepares a variety of periodic and other reports analyzing developments in the energy field.
CONTENTS

HIGHLIGHTS

I. GENERAL

PROJECT ACTIVITIES

Ammonia from Peat Plant Commissioned in Finland
New Zealand to Sell Its Share of Synfuel Plant

CORPORATIONS

ICF Wins DOE Support Contracts

GOVERNMENT

DOE Eases Alternative Fuels Requirement
Reagan, Before Stepping Down, Rejects Oil Import Fee
New Group to Address Earth Sciences and Mineral and Energy Resources
Advanced Materials Program Could Benefit Synthetic Fuels

ENERGY POLICY AND FORECASTS

IEA Sees Nine Percent Growth in Oil Demand by 1993
AGA Says Natural Gas Prices to Rise in 1989
AGA Study Calls for 33% Increase in Gas Use in 20 Years
API Says National Energy Policy Cannot Be Built on Conservation Alone
NDCF Calculates True Cost of Imported Oil
NCA Calls for National Energy Policy

ECONOMICS

Merrow Defines Cost Improvements Potential for Synfuel Plants

INTERNATIONAL

International Synfuels Agency Proposed
DOE Signs Agreement with Australia Covering Alternative Fuels
Free Trade Agreement Should Not Hurt Oil Sands Projects

ENVIRONMENT

Greenhouse Emissions Tabulated by State
WRI Report Argues Against Coal-Derived Methanol
National Academies Call for Reduction in Fossil Fuel Use

RESOURCE

Saudi Arabia Reports Huge Increase in Oil Reserves

RECENT GENERAL PUBLICATIONS/PATENTS

COMING EVENTS

SYNTHETIC FUELS REPORT, MARCH 1989
II. OIL SHALE

PROJECT ACTIVITIES

Gary Refinery Reopens to Process Unocal Syncrude
Unocal's Parachute Creek Project Still Striving for Breakeven

CORPORATIONS

Shell Australia Buys Interest in Yaamba Project
LLNL Proposes 100 TPD Pilot Plant

GOVERNMENT

Hazardous Material Regs May Complicate Life for Oil Shale Projects
Need for Oil Shale Mining and Material Handling Research Emphasized

ECONOMICS

HYCRUDE Estimates Production Costs for Eastern Shales
Economics of Beneficiation Plus Hydrotreating Reported

TECHNOLOGY

Oil Shale Attrition Affected by Temperature
Oil Shale Mining Research Receives Support
WRI Tests New Albany Shale in ROPE Process
Amoco Patents Static Mixer Retort
Unocal Patents Arsenic Removal Process

INTERNATIONAL

JOSECO Extends Retorting Runs Through March, 1989
Performance of UT-3000 Retorts Improved in Estonia
Status of World Oil Shale Processes Tabulated

ENVIRONMENT

Treasury Department Satisfied with Monitoring Results for Unocal Project
New Data Show Permeability Reduction in Shale Waste Piles

WATER

Piceance Basin Water Rights Slated for Sodium Mining Project
Companies File Water Right Applications in the Piceance Basin
Requirements Listed for Colorado Water Projects

RESOURCE

Utah Oil Shale Leases Expire
New Battle Expected Over Colorado Wilderness Areas
USGS Reports on Solid Bitumens in Piceance Creek Basin
Controversy Over Unpatented Oil Shale Claims Continues

SOCIOECONOMIC

AGNC Calls for Assistance to Unocal Project

RECENT OIL SHALE PUBLICATIONS/PATENTS

STATUS OF OIL SHALE PROJECTS

INDEX OF COMPANY INTERESTS

SYNTHETIC FUELS REPORT, MARCH 1989
III. OIL SANDS

PROJECT ACTIVITIES

NewGrade Energy at 66 Percent Capacity 3-1
Suncor Schedules Major Cutbacks 3-1
Bi-Provincial Upgrader Lets Engineering Contracts 3-1
Eyehill Project Passes One Million Barrel Mark 3-2
Canadian Syncrude Record Set 3-2
Amoco Sees No Go-Ahead for Primrose 3-3
OSLO Activities Get Under Way 3-3

CORPORATIONS

ORS Reduces Yearly Losses 3-5
Sceptre Reduces Capital Outlays for 1989 3-5
Imperial to Buy Texaco Canada, Shed Assets 3-6
Gulf Canada Marks Oil Sands Developments 3-6

GOVERNMENT

Government Aid Considered for Oil Mining Project 3-8

ENERGY POLICY & FORECASTS

The Future Belongs to Heavy Oil and Tar Sands 3-12
Canadian Heavy Oil to Look West for Markets 3-14
Canada NEB Forecast Notes Improvement in Oil Sands Outlook Since 1986 3-15

ECONOMICS

Small Scale ART Process Economical for Oil Field Upgrading 3-19

TECHNOLOGY

LR-Coking Process Applied to Oil Sands and Asphaltenes 3-23
Blends Tested for Canadian Gasolines of the Future 3-25
Consortium to Study Wood-Beaver Process with Beneficiated Sands 3-28

INTERNATIONAL

USSR Tests Combination Electromagnetic and In Situ Combustion Process 3-32
Venezuela Creates Development Plan for Million BPD from Orinoco 3-34
Duri Steamflood Increases Output 3-38
ASVAHIL Develops Suite of Upgrading Processes 3-38

ENVIRONMENT

Taciuk Processor Slated for PCB Cleanup 3-44
Treasury Gives Monitoring Results on Forest Hill Project 3-44

RESOURCE

Utah Leases Canceled 3-46
Southern Orinoco Delta Said Favorable for New Heavy Crude Discoveries 3-46

SOCIOECONOMIC

Fort McMurray Prepared for OSLO Project Boom 3-48

RECENT OIL SANDS PUBLICATIONS/PATENTS

3-49

STATUS OF OIL SANDS PROJECTS

3-51

INDEX OF COMPANY INTERESTS

3-73
IV. COAL

PROJECT ACTIVITIES

Liquid Phase Methanol Plant Achieves Record Run
Eastman to Expand Chemicals from Coal
British Gas and Osaka Gas Extend Work on MRS Gasification Process
Coal Upgrading Projects Proceed in Wyoming
Colstrip Project May Add Coal Conversion Unit
Shell to Join SGI’s LFC Project
Great Plains Operates Smoothly After Privatization

4-2
4-3
4-4
4-4

CORPORATIONS

ETSI Pipeline Sponsors to Get $235 Million from BN and KCSRC

4-6

GOVERNMENT

New Ceramic Membranes to be Studied as Gas Cleanup Devices
DOE Awards Contract for High Energy Density Fuels from Mild Gasification
DOE Drops One, Adds Three New Awards Under CCT Round One

4-7
4-7
4-8

ENERGY POLICY AND FORECASTS

ACS Lobbies for Clean Coal Research

4-9

ECONOMICS

Virginia Power Site-Specific Study Compares Economics for Gasification

4-10

TECHNOLOGY

Fossil Resins Could be Valuable Coal Byproduct
Reichl Patents Carbon Fuel Process Based on Boudouard Reaction

4-15
4-17

INTERNATIONAL

China Approves Chemicals from Coal
Beijing Weathers Coal Gas Crisis
Voest-Alpine Meltdown-Gasifier for Pig Iron Production Commercialized
India Builds 18 TPD Fluidized Bed Gasification Pilot
Commercial Interest Seen in CRE Spouted Bed Gasifier
Report from European Working Group on UCG Due in April
Design Improvements Made to HYCLOL Gasifier
Non-Slagging Cyclone Gasifier Developed in the United Kingdom
Poland Develops Two-TPD Liquefaction PDU
Ube Ammonia-From-Coal Plant Finds Market for Gasifier Slag
Fixed Bed Gasifier Combined Cycle Demo Plant Built in India
Victorian Brown Coal Offered for Industrial Development
