OIL SHALE  ○  COAL  ○  OIL SANDS

VOLUME 27 - NUMBER 1 - MARCH 1990

QUARTERLY

© THE PACE CONSULTANTS INC.
Pace Synthetic Fuels Report is published by The Pace Consultants Inc., as a multi-client service and is intended for the sole use of the clients or organizations affiliated with clients by virtue of a relationship equivalent to 51 percent or greater ownership. Pace Synthetic Fuels Report is protected by the copyright laws of the United States; reproduction of any part of the publication requires the express permission of The Pace Consultants Inc.

The Pace Consultants Inc., has provided energy consulting and engineering services since 1955. The company’s experience includes resource evaluation, process development and design, systems planning, marketing studies, licensor comparisons, environmental planning, and economic analysis. The Synthetic Fuels Analysis group prepares a variety of periodic and other reports analyzing developments in the energy field.
CONTENTS

HIGHLIGHTS

I. GENERAL

CORPORATIONS

Worldwide Synthetic Fuels Projects Listed

GOVERNMENT

Energy Department Implements Task Force Report on Science and Engineering
Appointments on United States Alternative Fuels Council Announced
Bush’s 1991 Budget Request for DOE is Unkind to Synthetic Fuels

ENERGY POLICY AND FORECASTS

IEA Sees no Justification for Enhanced Production of Alternative Fuels
EIA Outlines Long-Term Energy Outlook
GRI Predicts Imported LNG to Satisfy Future Gas Supply Shortfall
API Calls for Balanced Energy Strategy
National Energy Plan Urgently Needed Says NCA
Merrill Lynch is Bullish on Energy
Ratelle Forecasts Drop in Energy R&D Expenditures for 1990

ECONOMICS

Morrow Analyzes Uncertainties of Synthetic Fuels Type Projects

TECHNOLOGY

Skygas Gasifier Works on Variety of Carbonaceous Materials

INTERNATIONAL

DOE Team to Visit Soviet Union
NEDO Program Maintains Momentum

ENVIRONMENT

ADB Will Support Environmental Considerations in Energy Development

COMING EVENTS
II. OIL SHALE

PROJECT ACTIVITIES
- SPP/CPM Outline Stuart Development Plans
- Unocal Achieves New Production Record in November
- Occidental Staffs Up for MIS Demonstration Project
- Western Slope Refining Suspends Operations
- Rundle Project Studies Continuing at Low Level

CORPORATIONS
- Water-Jet-Assisted Mining Demonstration Moved to Unocal Mine
- SPP/CPM Continuing Broad Based Oil Shale Research

GOVERNMENT
- Bush 1991 Budget Request Again Guts DOE Oil Shale Program

ECONOMICS
- F90 Finds Power Generation Not Economical for 2,000 BPD Plant
- Economic Benefit Seen for Integration of LLNL Retort with MIS Project

TECHNOLOGY
- Microwave Retorting of Australian Shales May Show Promise
- USGS Summarizes Fire and Explosion Hazards of Oil Shale
- Column Flotation Proves Effective for Alabama Oil Shale
- Paving Quality Bitumen Produced from Rundle Shale Oil
- Exxon Patents Arsenic/Selenium Removal Method for Shale Oil
- Union Oil Patents Shale Oil Dewaxing Process

INTERNATIONAL
- Retorting Assay Methods Compared for World Oil Shales

WATER
- NaTec Files for Due Diligence on Water Rights

RESOURCE
- Oil Shale Land Patent Processing on Hold as BLM Waits for Congressional Action

SOCIOECONOMIC
- Exxon Sells Battlement Mesa
- Unocal Wins Battle Over Tax Refund

RECENT OIL SHALE PUBLICATIONS/PATENTS

STATUS OF OIL SHALE PROJECTS

INDEX OF COMPANY INTERESTS
III. OIL SANDS

PROJECT ACTIVITIES
OSLO Environmental Review Agreement Reached 3-1
Solv-Ex Buys Lease Interest 3-1
AROSTRA Plans to Extend UTF Program 3-1
Recent Oil Sands Orders and Approvals Listed 3-2

CORPORATIONS
UNITAR/UNDP Centre for Heavy Crude Restates Mission 3-4
AROSTRA Technology Program Summarized 3-4

GOVERNMENT
Change in Alberta Lease Procedures Could Force Oil Sands Developments 3-7
DOE Signals Shift in Oil and Gas Research Program 3-7
Horizontal Drilling Forces Changes in Regulatory Procedures 3-8
Bush 1991 Budget Again Eliminates All Tar Sands Funding 3-10

ENERGY POLICY & FORECASTS
ERCB Chairman Calls for Continued Oil Sands Research Efforts 3-11
CHOA Sees Nineties as Difficult Challenge for Heavy Oil Development 3-11

ECONOMICS
Bright Economic Outlook Seen for Heavy Oil in the 1990s 3-13

TECHNOLOGY
Inclined Plate Process for Froth Cleaning Patented 3-16
In Situ Hydrogenation Proposed for Heavy Crudes 3-18
Beneficiation of Alabama Tar Sands Tested 3-20
Air Injection Increases Bitumen Recovery in Hot Water Flood 3-22
Oil From Wolf Lake Fireflood Shows Improved Quality 3-25

INTERNATIONAL
Alberta Oil Sands Development Could Point the Way for Australian Oil Shale 3-28

ENVIRONMENT
Possible Actions to Limit the Greenhouse Impact of Oil Sands Bitumen Listed 3-30

RESOURCE
Heavy Oil Potential of Southwest Missouri Delineated 3-33

RECENT OIL SANDS PUBLICATIONS/PATENTS
3-36

STATUS OF OIL SANDS PROJECTS
3-37

INDEX OF COMPANY INTERESTS
3-61
IV. COAL

PROJECT ACTIVITIES

DOE Drops Energy International's UCG Project
Another CCT Round 1 Gasification Project Expires
Shell/SGI Project Wins Clean Coal Round 3 Funding
Great Plains Finishes First Year Under Private Ownership

CORPORATIONS

PAI Corporation Studying Flash Pyrolysis in Vibrating Bed
Coastal Subsidiary Set to Manage Coal Gasification Plants
New Group Formed to Market K-Fuel
New Coal Slurry Transport System to be Tested
Full-Scale IGCC Plant Based on Texaco Gasifier Planned in Massachusetts
EPRI to Study Opportunities for Coal Gasification Coproduction

GOVERNMENT

Meetings Held to Prepare for Next Round of Clean Coal Competition
Thirteen Winners Announced in Clean Coal Round 3
DOE Solicits New Directions in Liquefaction R&D
Energy Department Receives Proposals for 11th Year of Coal Grant Program

ENERGY POLICY AND FORECASTS

U.S. Coal Production and Consumption will Hit 1 Billion Tons in 1990, Says NCA
AGA Forecasts Adequate Gas Supplies Without Coal Gasification

ECONOMICS

Estimated Cost of Producing Jet Fuel at Great Plains Increases
New UOP Catalyst 10 Times as Active, Lowers Synocrude Production Costs

TECHNOLOGY

Coal Liquids Tested as Jet Fuel for Supersonic Aircraft
Coal Liquefaction Demonstrated Using Supercritical Water
Filtration Said Key to British Coal LSE Process
Transport Mode Hybrid IGCC System Described

INTERNATIONAL

Two-Stage Pyrolyzer/Gasifier Tested in China
Brazil's CIENTEC Studying Desulfurization During Coal Gasification
Plans Laid for Entrained Flow IGCC Demonstration in East Germany
Proposal Presented for Future European UCG Development

RESOURCE

DOE Proposes New Regulations for Coal Product Value
DOE Sets Eight Percent Federal Royalty on Underground Coal
Powder River RCT Votes to Decertify; to Meet in April
