Pace Synthetic Fuels Report is published by The Pace Consultants Inc., as a multi-client service and is intended for the sole use of the clients or organizations affiliated with clients by virtue of a relationship equivalent to 51 percent or greater ownership. Pace Synthetic Fuels Report is protected by the copyright laws of the United States; reproduction of any part of the publication requires the express permission of The Pace Consultants Inc.

The Pace Consultants Inc. has provided energy consulting and engineering services since 1955. The company’s experience includes resource evaluation, process development and design, systems planning, marketing studies, licensor comparisons, environmental planning, and economic analysis. The Synthetic Fuels Analysis group prepares a variety of periodic and other reports analyzing developments in the energy field.

CONTENTS

HIGHLIGHTS

I. GENERAL

CORPORATIONS

Petrocorp Acquires New Zealand Synfuels 1-1
Landfill Gas to Diesel Plants Proposed 1-1

GOVERNMENT

DOE Announces SBIR Phase I Awards 1-2
GAO Critiques DOE Budgeting Priorities for R&D 1-2
DOE Announces SBIR Phase II Awards 1-5

ENERGY POLICY AND FORECASTS

Opinion Poll Supports a Strong National Energy Policy 1-6
NCA Statement Scores Cost of Mideast Crisis 1-6
Prospects for Synthetic Fuels Called Limited 1-7
Chevron Says Alternative Energy Sources Will Not Be Competitive in This Decade 1-7
GAO Endorses DOE Energy Strategy Efforts 1-9
Increase in Oil Demand Slowing Says BP 1-11
Shell Sees Oil Production Peaking at 80 Million B/D 1-12
IEW Polls Energy Forecasters 1-13

ECONOMICS

Liquid Fuels from Methane Could Compete With $22 Oil 1-15

TECHNOLOGY

ICI’s Gas Heated Reformer Will Lower Methanol Production Costs 1-18
Obstacles Identified for Commercialization of Methane Oxidative Coupling 1-19
IGT Supports Research on Chemicals from Natural Gas 1-21

RECENT GENERAL PUBLICATIONS/PATENTS 1-23

COMING EVENTS 1-24
II. OIL SHALE

PROJECT ACTIVITIES
Parachute Creek Project Updated
LLNL Oil Shale Project Starts 4 Ton/Day Retort
Western Slope Refining Again Ceases Operation
Second Nahcolite Mining Project Moves Ahead

GOVERNMENT
DOE Oil Shale Program Reviewed
House Committee Appropriates Money for Oxy Project

TECHNOLOGY
Occidental Reports Oil Shale Combustion Tests in Fluidized Boiler
Ramex Patents Oil Shale Gasification Process
LLNL Finds Coking Loss Proportional to Recycle Ratio

INTERNATIONAL
Russell Publishes Book on Oil Shales of the World
Oil Shale Interest Seen in India
Shale Oil Residue Could be Used on Roads in Russia

WATER
FWS Proposes to List Razorback Sucker as Endangered Species

RESOURCE
Court Rules for Marathon in Oil Shale Claims Case
New Paraho Assumes Oil Shale Leases from Shell
White River Resource Management Plan to be Revised
BLM to Prepare EIS for Nahcolite Project

RECENT OIL SHALE PUBLICATIONS/PATENTS

STATUS OF OIL SHALE PROJECTS

INDEX OF COMPANY INTERESTS
III. OIL SANDS

PROJECT ACTIVITIES

- Site Work Completed at Bi-Provincial Upgrader
- Alberta Commits $47 Million to OSLO Study
- Suncor Averages 57,500 Barrels Per Day for First Quarter
- First Year of Operations at Co-op Upgrader Described
- Record Horizontal Well Drilled at Heavy Oil Project
- Edmonton Selected for OSLO Upgrader Site
- Kearl Lake Project Passed One Million Barrel Production Mark

CORPORATIONS

- Utah Pilot Plant Proposed
- Syncrude Plant Interests for Sale
- Gulf Sees Continuing Major Role for Oil Sands
- Suncor Oil Sands Reports Loss in Second Quarter

GOVERNMENT

- ERCB Reviews 1989 Oil Sands Picture

ENERGY POLICY & FORECASTS

- Near-Term Outlook for Canadian Heavy Oil Not Promising

ECONOMICS

- Economic Analysis Shows Promise for Energy-Integrated Process
- Canadian Data Show 65 percent Drop in Oil Sands Expenditures in 1989
- Economics of Heavy Oil Will Continue to be Challenging

TECHNOLOGY

- Shell Patents Electrical Preheat Extraction Process
- ROPE Process Shows Promise on California Tar Sands
- Ultrasonic Extraction Method Patented
- Solvent Extraction/Cosolvent Precipitation Process Modified
- Demo Plant Planned for SESA Process

RESOURCE

- Canadian Reserves of Synthetic Crude Oil Increase
- Alberta to Reduce Oil Sands Lease Periods

RECENT OIL SANDS PUBLICATIONS/PATENTS

STATUS OF OIL SANDS PROJECTS

INDEX OF COMPANY INTERESTS
IV. COAL

PROJECT ACTIVITIES

Great Plains Phenol Plant Nearing Completion
CTC Expanding Production and Marketing
Sasol Approves Six New Projects
DGC Board Votes to Change Air Quality Application
Negotiations Completed for Western Energy Project
ENCOAL Completes Funding Negotiations
New Coal Gasification/Cogeneration Project Planned in Virginia
Dow Syngas Gasifies One Million Tons of Coal

GOVERNMENT

University R&D Awards Include Coal Conversion Projects
DOE Delays CCT Round 4
Three Firms Will Get Molten Carbonate Fuel Cell Funding

ENERGY POLICY AND FORECASTS

Coal Council Delivers Report on Industrial Use of Coal
IEA Predicts 20 Percent Growth in Coal Use by 2000

ECONOMICS

Scotia Synfuels Calculates 20 Percent Return Possible
Economic Window of Opportunity Seen for Coprocessing
Yield at Wilsonville Reaches 4 Barrels Per Ton

TECHNOLOGY

New Book Summarizes Production of Methanol from Coal
Texaco Patents Process to Feed Sewage Sludge to Coal Gasifier
Storage Stability of Coal-Derived Jet Fuels Tested
Symposium Highlights Progress in Bioconversion of Coal
Only Trace Levels of Phenols Found in Great Plains Jet Fuels
Simultaneous Grinding Increases Liquefaction Rate
Texaco Tests Hot Gas Desulfurization System
METC Programs Target Methods for Making Hydrogen from Coal

INTERNATIONAL

Coal-Water Fuels Draw Emphasis in Japan
Sasol Product Could Meet Reformulated Gasoline Specs
Extensive Use of IGCC Seen for Europe
Clean Coal Technologies Suggested for Pacific Rim
Uhde and Lurgi to Cooperate on Development of HTW Process
Australian Brown Coal Liquefaction Project to Close

RESOURCE

Interior Re-Establishes Historic Coal Valuation Formula

SOCIOECONOMIC

Socioeconomic Impact of Coal Industry Noted
Final Economic, Social and Cultural Supplement to Powder River EIS Issued

RECENT COAL PUBLICATIONS/PATENTS
