Pace Synthetic Fuels Report is published by The Pace Consultants Inc., as a multi-client service and is intended for the sole use of the clients or organizations affiliated with clients by virtue of a relationship equivalent to 51 percent or greater ownership. Pace Synthetic Fuels Report is protected by the copyright laws of the United States; reproduction of any part of the publication requires the express permission of The Pace Consultants Inc.

The Pace Consultants Inc., has provided energy consulting and engineering services since 1955. The company’s experience includes resource evaluation, process development and design, systems planning, marketing studies, licensor comparisons, environmental planning, and economic analysis. The Synthetic Fuels Analysis group prepares a variety of periodic and other reports analyzing developments in the energy field.

CONTENTS

HIGHLIGHTS

I. GENERAL

CORPORATIONS

Skygas Unit Under Construction in Italy
IGT Annual Report Notes Work on Synthetic Fuels
Battelle Calls for Energy Diversity
Fuel Oil from Wood Plant Completed in Missouri

GOVERNMENT

Future of Energy Department Laboratories Debated
DOE Releases Mid-Term Strategy Options
SBIR Fossil Energy Awards Described
DOE Gets Increase in Fossil Energy Budget for 1991

ENERGY POLICY & FORECASTS

Ebinger Notes Uncertainty in World Oil Outlook
Energy Problems in 1990s Inevitable Says Booz-Allen
Survey Shows Public Support for Strong Energy Policy
Rate of Increase in Oil Demand Projected to Slow for Next 5 Years
True Cost of Imported Oil Said to Exceed $75 Per Barrel
Reichl, Jeffords Revive Proposals for Synfuels Mandate

TECHNOLOGY

Process for Fuel Gas From Wastes to Be Tested
National Research Council Says Mining Industry Losing Technology Base
Alternative Fuels Research Noted at Canadian Chemical Conference

INTERNATIONAL

New CSIRO Division of Coal and Energy Technology Maps Out Research Program

COMING EVENTS
II. OIL SHALE

PROJECT ACTIVITIES

Congress Votes Flexibility for Unocal 2-1
LLNL Attracting Industrial Sponsors for Retorting Pilot Plant 2-1
Southern Pacific Petroleum to Complete Stuart Engineering By Year-End 2-2
Funds Voted for MIS Demonstration Project 2-3

CORPORATIONS

Texas Firm Buys Western Slope Refining 2-4
Oil Shale Pioneer Fred Hartley Dies 2-4
Ramex Process to be Tested at IGT 2-4
Marathon Joins Forces with New Paraho 2-5

ECONOMICS

Oxy Predicts Shale Oil Cost of $30 to $35 2-6

TECHNOLOGY

Blasting Agents Developed for Use in Gassy Oil Shale Mines 2-7
Shale Combustion Tests Carried Out in CFBC 2-8
Attrition Studies Suggest Fluidized Beds Not Ideal for Spent Shale Combustion 2-10

INTERNATIONAL

Shale Oils From Fushun and Maoming, China Analyzed 2-13
Nova Scotia Oil Shale Assessment Completed 2-14
Oil Shale Fired Boiler On-Stream in Israel 2-16
Morocco Revises Oil Shale Plans 2-17
Oil Shale Studied in India 2-17

ENVIRONMENT

Treasury Finds No Significant Environmental Impact at Unocal 2-18
BLM Issues Wilderness EIS in Colorado 2-20
Oil Shale Wastewater Treated by Aeration 2-22
Environmental Problems Noted in Estonian Oil Shale Region 2-23

RESOURCE

USGS Accumulating Extensive Oil Shale Core Library 2-25
Mining Law Rewrite Dies in Congress, on Tap Again for Next Year 2-26
Magic Circle Leases Utah Shale Lands 2-27

RECENT OIL SHALE PUBLICATIONS/PATENTS

2-28

STATUS OF OIL SHALE PROJECTS

2-31

INDEX OF COMPANY INTERESTS

2-47
III. OIL SANDS

PROJECT ACTIVITIES

Nynas Project Canceled in Sweden 3-1
Syncrude Passes 25 Years 3-2
Hangingstone Project Officially Opened 3-2
OSLO Plans Diluted Bitumen Pipeline 3-3
Texaco Says McKittrick Would be Profitable at Current Oil Prices 3-3

CORPORATIONS

Mideast Crisis Provides at Least a Temporary Lift to Oil Sands Projects 3-4
University of Utah Gets $723,000 for Tar Sands Research 3-4
Amoco Drilling for Primary Production 3-4
BP Drops Plans to Sell Wolf Lake 3-5
Chevron Buys Texaco Canada Oil Sands Interests 3-5
Suncor Oil Sands Group Shows Increase in Third Quarter Profits 3-5

ECONOMICS

Counterflow Reactor Shows Economic Promise for Upgrading and Coprocessing 3-6

TECHNOLOGY

Borehole Mining Said Applicable to Tar Sands 3-9
Model Developed for Heat Pipe Coupled Pyrolysis System 3-11
Extraction Process Based on Isopropyl Alcohol Patented 3-12
New Vapex Process Targets Heavy Oil Recovery 3-14

INTERNATIONAL

Venezuela to Hike Orimulsion Output 3-17
Orimulsion Combustion Tests Carried Out in Japan 3-17
UNITAR to Develop World Catalog of Pilot Projects 3-18

ENVIRONMENT

Sustainable Development Program Pushed for Alberta 3-19

RECENT OIL SANDS PUBLICATIONS/PATENTS 3-20

STATUS OF OIL SANDS PROJECTS 3-22

INDEX OF COMPANY INTERESTS 3-47
PROJECT ACTIVITIES

Liquid Phase Methanol Demonstration Will Not be Carried Out at Great Plains Site 4-1
Coal to Acetylene Project Planned 4-1
Ground-Breaking Held for ENCOAL 4-1
DOE and CE Negotiate an Agreement for the Lakeside Project 4-2
Calderon Starts Up Pilot Gasifier 4-3
Wyoming Clean Coal Projects Have Ups and Downs 4-3
More Byproduct Development Under Way at Great Plains 4-4

CORPORATIONS

Dakota Gasification Files Suit Over Gas Sales Contract 4-6
Southern Company Services to Test Hot Gas Cleanup Processes 4-6

GOVERNMENT

DOE Restarts Clean Coal Program 4-8

ENERGY POLICY & FORECASTS

Gradual Shift to Chemicals From Coal Seen by Eastman 4-9
Coal Conversion Seen as Bridge to the Future in Southeast Asia 4-11

ECONOMICS

Shell Coal Gasifier Predicted to be Economical for Transportation Fuels in 2003 4-13
British Coal Expects LSE Process to be Profitable After Year 2000 4-15
Study Finds Benefits for Integrated Mild Gasification at Homer City Site 4-16
High Value Coproducts Seen as Key to Success of IGT Mild Gasification 4-16

TECHNOLOGY

Vortex Partial Combustor/Gasifier Tested at Penn State 4-20
Low Temperature Depolymerization-Liquefaction Demonstrated with Three Coals 4-20
Advances Noted in Coprocessing at UOP 4-21
IGHAT Cycle Promises Better Performance than IGCC 4-22
Southern Company Finds Advantages for Air-Blown Gasification 4-24
Calderon Patents Coal Conversion Process 4-27

INTERNATIONAL

Coal Gasification Units Shut Down in Eastern Germany 4-30
IGCC Power Plant Under Consideration in Italy 4-30
Siemens Gas Turbine Burners Tested for Buggenum IGCC Power Plant 4-30
Runs at Brown Coal Liquefaction Pilot Plant Summarized 4-33
New Coal Conversion Program Under Way in the European Communities 4-35
Clean Coal Technology Program Under Way in China 4-37
GSP Process Considered for Two IGCC Projects in Germany 4-38

ENVIRONMENT

Flue Gas Desulfurization to Replace Sulfolin at Great Plains 4-41
NIOSH Studying Toxicity of Mild Gasification Products 4-41

RECENT COAL PUBLICATIONS/PATENTS

STATUS OF COAL PROJECTS

iv
V. NATURAL GAS

GENERAL

Natural Gas Conversion Projects Justify New Section 5-1
Starchem Gets SBIR Money to Study Natural Gas Conversion 5-1
Technology Changes Increase Efficiency in Finding Natural Gas 5-1
Direct Methane Conversion Draws Interest at Catalyst Meeting 5-2
