the sinor synthetic fuels report

quarterly

J.E. SINOR CONSULTANTS INC.
THE SINOR SYNTHETIC FUELS REPORT is published by J.E. Sinor Consultants Inc. as a multi-client service and is intended for the sole use of the clients or organizations affiliated with clients by virtue of a relationship equivalent to 51 percent or greater ownership. THE SINOR SYNTHETIC FUELS REPORT is protected by the copyright laws of the United States. No part of the report may be copied, stored in an electronic data retrieval system, or transmitted to third parties unless expressly authorized by J.E. Sinor Consultants Inc.

We welcome your comments concerning THE SINOR SYNTHETIC FUELS REPORT.

J. E. Sinor Consultants Inc. has provided alternative energy consulting and reporting services since 1985. The company's experience includes resource evaluation, process development and design, technical evaluations, expert witness testimony, marketing studies, environmental planning, and economic analysis.

For additional information concerning company qualifications, capabilities and experience, please contact:

J.E. SINOR CONSULTANTS INC.
Suite 1
6964 North 79th Street
Post Office Box 649

Facsimile (303) 652 2772

The Sinor Synthetic Fuels Report is published quarterly in January, April, July, and October by J.E. Sinor Consultants Inc., 6964 North 79th Street, Suite 1, Niwot, Colorado, USA 80544, (303) 652 2632.
CONTENTS

GENERAL

CORPORATIONS
Gasification of Coke to Make Ammonia Under Study in Kansas 1-1
M-C Power’s Molten Carbonate Fuel Cell Installed in 1-Megawatt San Diego Plant 1-1
World’s Largest (2 MW) Molten Carbonate Fuel Cell Plant Producing Power 1-2

GOVERNMENT
GAO Study Documents Shrinking of Funds for Electricity Related R&D 1-2
DOE Combines Morgantown and Pittsburgh Energy Technology Centers 1-5

ENERGY POLICY AND FORECASTS
DOE Concludes That Replacing 30 Percent of Petroleum in 2010 is Feasible 1-5
Hubbert Curves Show Permanent Downturn in World Oil Production By 2010 1-7
New Offshore Developments Will Prevent Non-OPEC Oil Decline in This Century 1-12

ECONOMICS
Economic Analysis Shows Best Prospects for Residue-Fired IGCC in Europe 1-13

TECHNOLOGY
Gasification Has Become an Important Process Option for Petroleum Refineries 1-15
Gasification Processes for Municipal Waste Evaluated 1-19
Development, Status and Future of Fischer-Tropsch Process Reviewed 1-24
Liquid Phase Production of DME From Coal Syngas Can Lead to Other Products 1-28
Isobutanol From Syngas Draws Interest 1-29
Combined Fuel Cell/Gas Turbine Systems Promising 1-32
Integrated Biomass Requires No More External Energy Than Coal-Fired Systems 1-35
Biofuel Pyrolysis Oil Proves to Be Suitable Boiler Fuel 1-39
DOE-Sponsored Project Will Grow Willow Trees as Energy Source 1-41

INTERNATIONAL
Locations of Chinese Synthetic Fuel Projects Noted 1-42

ENVIRONMENT
Carbon Dioxide From Oil Shale and Gas Will Become Significant After 2050 1-42

COMING EVENTS

OIL SHALE

PROJECT ACTIVITIES
Preconstruction Engineering for Stuart Project Nears Completion 2-1

CORPORATIONS
Sodium Bicarbonate Production in Piceance Creek Basin Expanding 2-1

TECHNOLOGY
Pyrolysis of Alpha Torbanite Could Yield Adsorbent Carbon 2-2
Normal Paraffins and 1-Olefins Removed From Shale Oil By Urea Adduction 2-3
Eastern Oil Shale Not Attractive as an Asphalt Additive 2-3

INTERNATIONAL
New Catalysts Developed for Upgrading Israeli Oil Shale 2-4
Optimum Retorting Temperature Defined for UK Oil Shales 2-7

ENVIRONMENT
Estonian Oil Shale Workers Exposed to High PAH Levels 2-8
Heavy Metals Emitted From Estonian Shale-Fired Powerplants 2-9

THE SYNTHETIC FUELS REPORT, JANUARY 1997
OIL SANDS

PROJECT ACTIVITIES

Suncor Reports Expansion Projects Ahead of Schedule 3-1
New Mining-Assisted Oil Recovery Project Planned for Texas 3-2
Japan Canada Oil Sands Reactivates Hangingstone Project 3-3

CORPORATIONS

Coproduction Recovery Expected to Improve Solv-Ex Economics 3-5
Alberta Research Council Continues Oil Sands Research 3-7
Orimulsion Set Back By Loss of British Customer 3-7

GOVERNMENT

Alberta Energy and Utilities Board Notes Oil Sands Progress in Annual Report 3-8

ECONOMICS

Solvent Assisted Gravity Drainage Looks Economic for Some Heavy Oil Reservoirs 3-9

TECHNOLOGY

Thermal Fracturing With Horizontal Wells Improves Reservoir Management 3-12
Countercurrent Extraction in Vapex Process Speeds Early Recovery Rates 3-14
Texaco Studies Downhole Catalytic Upgrading of Heavy Oil 3-16
Piles Peak Steam Project in Saskatchewan Succeeds With Vertical Wells 3-19
Orimulsion Proves Compatible With Low NO_x Burners 3-22

STATUS OF TAR SANDS PROJECTS

3-25

INDEX OF COMPANY INTERESTS

3-46

COAL

PROJECT ACTIVITIES

FERC Ruling Gives Great Plains Gasification Plant Lift for New Year 4-1
Wabash River Project Makes Commercial Runs at Design Capacity 4-1
SGI and ENCOAL Say Applications to Be Filed for Wyoming LFC Plant 4-4
COGA Industries Gets Permit for Illinois Coal-To-Fertilizer Plant 4-5
Gasification of Mixed Coal/Waste Goes Commercial in Germany 4-6
NEDOL Liquefaction Pilot Plant Starts Up in Japan 4-8
BGC/Lurgi Slagging Gasifier is Basis for 75-MW IGCC Project in Scotland 4-9

CORPORATIONS

Carbon Products Consortium Searching for Non-Fuel Products From Coal 4-12
Koppers Will Close Houston Coal Tar Plant 4-14
Coalite Smokeless Fuel and Coal Chemicals Operations Put Up for Sale 4-14

GOVERNMENT

METC Hot-Gas Desulfurization PDU Available for Cooperative Research Efforts 4-14

ECONOMICS

Upgrading F-T Coal Liquids By FCC Found Superior to Hydrocracking 4-16
TECHNOLOGY
   COREX Technology Finding Niche in Steel Industry 4-19
   Consortium for Fossil Fuel Liquefaction Focus on Coprocessing 4-23
   Novel Coal Liquefaction Process Based on Hydride Ion Donation 4-26
   Mild Pyrolysis Removes Mercury From Coal 4-27
   Two-Stage Coliquefaction of Waste Plastics and Coal Shows Promise 4-29
   Cogasification With Biomass Lowers Costs of Coal Gasification 4-31

INTERNATIONAL
   Hydrogen to Be Produced Via Coal Gasification in China 4-32

STATUS OF COAL PROJECTS 4-33

INDEX OF COMPANY INTERESTS 4-76

NATURAL GAS

PROJECT ACTIVITIES
   Mossgas Will Expand Gas Production Capability 5-1

CORPORATIONS
   Exxon Considering Natural-Gas-To-Liquids Plant In Qatar 5-1
   Methanex Board Approves Third Methanol Plant for Chile 5-1
   Texaco Becomes Licensee for Synthroleum Process 5-2

TECHNOLOGY
   Oxidative Coupling of Methane Enhanced In Membrane Reactors 5-2

STATUS OF NATURAL GAS PROJECTS 5-5
