the sinor synthetic fuels report

VOLUME 5 - NUMBER 2
APRIL 1998

quarterly

J.E. SINOR CONSULTANTS INC.
THE SINOR SYNTHETIC FUELS REPORT is published by J.E. Sinor Consultants Inc. as a multi-client service and is intended for the sole use of the clients or organizations affiliated with clients by virtue of a relationship equivalent to 51 percent or greater ownership. THE SINOR SYNTHETIC FUELS REPORT is protected by the copyright laws of the United States. No part of the report may be copied, stored in an electronic data retrieval system, or transmitted to third parties unless expressly authorized by J.E. Sinor Consultants Inc.

We welcome your comments concerning THE SINOR SYNTHETIC FUELS REPORT.

J. E. Sinor Consultants Inc. has provided alternative energy consulting and reporting services since 1985. The company’s experience includes resource evaluation, process development and design, technical evaluations, expert witness testimony, marketing studies, environmental planning, and economic analysis.

The Sinor Synthetic Fuels Report is published quarterly in January, April, July, and October by J.E. Sinor Consultants Inc., 6964 North 79th Street, Suite 1, Niwot, Colorado, USA 80544, (303) 652 2632.
CONTENTS

GENERAL

PROJECT ACTIVITIES
Westinghouse Reports Largest Solid-Oxide Fuel Cell Startup a Success
Air Products Begins Engineering of $50 Million Gas Unit

CORPORATIONS
Pure Energy Plans New Fuel Based On Methyltetrahydrofuran
Shell Making Big Move Into Renewable Energy
Ballard Expands Stationary Fuel Cell Business

GOVERNMENT
DOE Issues Draft Comprehensive National Energy Strategy

ENERGY POLICY AND FORECASTS
EIA’s Annual Energy Outlook Revises Energy Demand Upward for Period to 2020
World Energy Council Projects $30 Trillion in 30 Years for Energy Projects
The End of Cheap Oil Said to Be Foreseeable
Economists Conclude That Energy Causes Economic Growth

ECONOMICS
F-T Success Will Require Combination of Favorable Factors

TECHNOLOGY
Variety of Transportation Fuel Additives From Syngas May Be Feasible
Lurgi to Sell German Synthesis Gas Technology
Fuel Cell Powerplants Will Be Suited for Variety of Fuels and Environments
Spanish Biomass Gasification Pilot Plant Makes Clean Gas
Entrained-Flow Gasification of Biomass and Coal Could Be Promising
Coal/Water Coprocessing Liquids Upgraded
New Hydrogen Technologies Serve Oil Refinery Needs

ENVIRONMENT
Powerplant Emissions Control in the U.S. to Shift Focus From SO₂ to NOₓ and PM

COMING EVENTS

OIL SHALE

INTERNATIONAL
Exploitation of Jordanian Oil Shales Would Benefit the Country

RESOURCE
Naval Oil Shale Reserves Transferred to BLM and Opened for Drilling

OIL SANDS

PROJECT ACTIVITIES
Fourth Phase of Development at Burnt Lake Confirms Economic Potential

CORPORATIONS
Suncor Increases Capital Spending for Project Millennium
Synrude Growth Triggers $220 Million Pipeline Expansion By AEC
Koch Exploration Acquires Solv-Ex Leases, Plans Development
Canadian Natural Resources Expands Pelican Lake Holdings
Amber Energy Adds to Pelican Lake Holdings
Exxon, Corpoven Sign MOU for Venezuela Development

THE SYNTHETIC FUELS REPORT, APRIL 1998
COAL

PROJECT ACTIVITIES
- Coal-Fueled Diesel Engine Given Go Ahead for Alaska
- Feasibility Study Planned for Clean Coal Powerplant in Kentucky
- NEDO Liquefaction Plant Completes 80-Day Run
- Feasibility Study Under Way for Commercial Coal Liquefaction Plant in China

CORPORATIONS
- Covol Lists Projects and Prospects

ENERGY POLICY AND FORECASTS
- DOE Strategic Plan Sees Large Market Share for Gasification in 2015
- Future of Coal Could Be Constrained, Says Yeager

ECONOMICS
- Pyrolysis of Coal with Coke-Oven Gas Improves Economics

TECHNOLOGY
- New Process Revealed for Catalytic Liquefaction of Low-Rank Coal
- Pelletized E-Fuel Reduces Fuel Costs and Emissions
- UCG Could Be Used to Improve Coalbed Methane Production
- Status of U.S. UCG Technology Reviewed
- Methacoal Concept Proposed for Waste Disposal

INTERNATIONAL
- Cost is the Keystone for IGCC Applications in China
- NEDO Launches Briquette Project in Thailand

RESOURCE
- IEA Predicts Fundamental Changes in International Coal Trade

NATURAL GAS

PROJECT ACTIVITIES
- Methanex's Punta Arenas Plant Adds Two Methanol Units
- Offshore Floating Production System for Methanol Looks Promising

CORPORATIONS
- Statoil Lets Contracts, Looks to Tap North Sea Gas
- Gas Utilization Research Forum Fosters Industry Cooperation

ECONOMICS
- Crocco Sees Stabilization of World Methanol Market
- Shell Finds Scale-Up Key to Methanol Economics

TECHNOLOGY
- Offshore Production Feasible for Gas-To-Liquids Technology
- New Catalysts for Gas-To-Liquid Process Patented
- New Technologies for Syngas Production are On the Way
- Liquid Phase Methanol Development Reviewed
