the sinor synthetic fuels report

VOLUME 6 • NUMBER 2 • APRIL 1999

quarterly

J.E. SINOR CONSULTANTS INC.
THE SINOR SYNTHETIC FUELS REPORT is published by J.E. Sinor Consultants Inc. as a multiclient service and is intended for the sole use of clients or organizations affiliated with clients by virtue of a relationship equivalent to 51 percent or greater ownership. THE SINOR SYNTHETIC FUELS REPORT is protected by the copyright laws of the United States. No part of the report may be copied, stored in an electronic data retrieval system, or transmitted to third parties unless expressly authorized by J.E. Sinor Consultants Inc.

We welcome your comments concerning THE SINOR SYNTHETIC FUELS REPORT.

J.E. Sinor Consultants Inc. has provided alternative energy consulting services since 1985. The company's experience includes resource evaluation, process development and design, technical evaluations, expert witness testimony, marketing studies, environmental planning and economic analysis.

For additional information concerning company qualifications, capabilities and experience, please contact:

THE SINOR SYNTHETIC FUELS REPORT is published in January, April, July and October by J.E. Sinor Consultants Inc., 6964 North 79th Street, Suite 1, Niwot, Colorado 80544-0649, (303) 652 2632.
CONTENTS

GENERAL

ENERGY POLICY & FORECASTS
EIA Reduces Future Oil Price Projections in New AEO 1
Fifty-Year Transformation to Alternative Energy Sources Seen Possible 4
Oil Prices Projected to Recover in 2000 6
Study of Federal Subsidies Says Renewables Have Been Over-Funded 8

TECHNOLOGY
Properties of Sasol Slurry Phase Distillate Diesel Fuel Listed 9
Gasification Will Be the Gateway to a Cleaner Future 11
Steam Gasification Provides a Route for Upgrading Biomass Chars and Lignin 15
IGT-Developed Separator Plate Makes Residence-Size PEM Fuel Cells Practical 17
Solid Oxide Fuel Cell/Turbine System Could Achieve 70 Percent Conversion Efficiency 19
Reburning With Alternative Fuels Successful in Reducing NOx 23
Source of Hydrogen Only One of the Factors Needed for a Hydrogen Economy 28
BNL Develops Atom-Economical Process for Methanol From Biomass 29
Renewable Feedstocks Seen as Source for the Production of Chemicals 33
Fluidized-Bed Gasifier Tested on Sugarcane Bagasse 34

INTERNATIONAL
Iceland Could Become World's First "Hydrogen Economy" 34
Vegetable Oil Fuels Studied for Turkey 35

ENVIRONMENT
Options for Carbon Dioxide Capture and Management Nearing Feasibility 37

COMING EVENTS

OIL SHALE

PROJECT ACTIVITIES
Stuart Nearing Startup, Mining Contract Awarded 42

TECHNOLOGY
Estonian Shale Oil Distillates Prove to Be Stable and Compatible 42
Vacuum Pyrolysis of Canadian Oil Shales Produces Higher Oil Yields 43
Study of Turkish Oil Shales By Thermal Methods Yields Kinetic Parameters 46

RESOURCE
Draft EIS Issued for Yankee Gulch Nahcolite Leaching Project 47
Naval Oil Shale Lands May Hold Large Natural Gas Potential 51

OIL SANDS

PROJECT ACTIVITIES
Suncor Reviews Project Millennium 53
Shell Canada Wins Approval for Muskeg River Mine 58
Mobil's Kearl Oil Sands Project Could Produce 130,000 Barrels per Day 59
Petrolea Amerivven Partners Express Confidence in Orinoco/Hamaca Project 61
Gulf Canada Seeks Shut-In of Natural Gas Production Near Surmont Project 61
Japan Canada Oil Sands Starts Up Hangingstone Project 62
Coastal's Zuata Project in Venezuela Put on Hold 62
Sincor Awards Construction Contracts 62

THE SYNTHETIC FUELS REPORT, APRIL 1999
CORPORATIONS
Orimulsion Sales Slip During 1998 63

TECHNOLOGY
Horizontal Wells the Key to Economic Feasibility of Orinoco Heavy Crude 63
Heavy Oil Recovered From Thin Pay Zones By Electromagnetic Heating 65
Centrifuge Tailings Can Be Processed to Recover Titanium and Zirconium 68
Improved Formulation Developed for Second Generation Orimulsion 70

INTERNATIONAL
Orimulsion Faces Opposition in Italy 71
Large-Scale Tar Sands Projects Judged Unlikely in China's Junggar Basin 72
Integrated Processing Will be the Key to Bitumen Exploitation in Tatarstan 73
Development of Bemolanga Tar Sands Will Not Be Constrained By Environmental Problems 76

COAL

PROJECT ACTIVITIES
Temporary Sale of Great Plains Synfuels Plant Will Allow Claiming of Tax Credits 78
Pipeline Construction Under Way to Move Great Plains CO₂ to Canada 78
First Commercial Burn of K-Fuel Called a Success by KFx 80
Mitsui Babcock Energy Developing Air Blown Gasification Cycle 82
Thermochem Pulsed-Combustor Project Revived 83
Geneva Steel Bankrupt, Throwing CPICOR Project in Doubt 84
Global Energy to Build 400-MW IGCC Unit in Kentucky 84
Clean Energy Partners IGCC Project May Move to Illinois Location 84
Liquid Phase Methanol Project Marks Progress 85
High Temperature Winkler Leads to Uhde PreCon Process for Waste Gasification 85

CORPORATIONS
SGI and Mitsubishi Form Joint Venture to Promote LFC Technology 87
E-Fuel Receives Boiler Association Award 88

ECONOMICS
Direct Liquefaction Coprocessing in HTI Process Produces Oil at $14 per Barrel 88
New PRENFO IGCC Design Offers 52 Percent Efficiency at $1,100 per Kilowatt 92
New Gas Turbine Shifts IGCC Cost Advantage to Dynegy Gasifier 96

TECHNOLOGY
Syngas/Water Mix is Good Hydrogen Source for Coprocessing 99
Co-Coking is a New Technique for Making Jet Fuels From Coal 103
Coal/Biomass Co-firing Efforts Leading to Cogasification 104
Supercritical Ethanol Extracts Organic Resins From Coal 108
Tire-To-Coal Ratio of 1.0 Found Best for Coliquefaction 108
Carbon Dioxide and Steam Compared as gasification Media 111

INTERNATIONAL
IEA Clean Coal Centre Publishes Databases on CD-ROM 113
NMA Forecasts Record Level Coal Production and Consumption 113

NATURAL GAS

PROJECT ACTIVITIES
Shell's Bintulu Plant Will Be Onstream Again in 2000 With Improved Technology 115

ECONOMICS
Advanced Gas Heated Reformer Improves Gas-To-Liquids Economics 116
SFA Pacific Sees Process Improvements Bringing Liquids From Gas to Less Than $20/Barrel 120
Environmental Needs Will Pull GTL Projects Into the Market, Says Syntroleum 123

TECHNOLOGY
Methanol: Born in 1923 and Still Going Strong 126

THE SYNTHETIC FUELS REPORT, APRIL 1999
