

Department of Mining Engineering

2008 Spring Events

Michael Schaal
Energy Information Administration
US Department of Energy

Mining Engineering Foundation Distinguished Lecturer

*“Fossil Fuels in a Future with Biomass Power,
Biofuels and Climate Change”*

Thursday, April 17, 2008 - 5:00 pm

Mining & Mineral Resources Building (MMRB), Rm. 102
University of Kentucky Campus

Reception immediately following lecture

Free and open to the public, but registration is recommended

Michael Schaal is Director of the Energy Information Administration's Oil and Gas Division for the US Department of Energy. His attention is focused on adequately characterizing current and future biofuel technologies, coal-to-liquid and coal-to-gas technologies, as well as the availability and cost of extracting domestic oil and natural gas. His presentation will highlight EIA's understanding of these issues and how they may play out in the future for coal and other energy supplies.

Friday, April 18, 2008

Professional Development Seminar “Crisis Management in the Coal Industry”

Mining & Mineral Resources Bldg., Rm. 102 - UK Campus (registration and fee required)
