
CURRICULUM AND ADVISING 2006

CAER contributes to UK's mission of instruction, impacting students at the K-12, undergraduate, graduate, and postdoctoral levels.

U. Graham - Made presentation to the Department of Chemical Engineering, University of Louisville entitled "Nanoscale Study of Fe-catalysts for Fischer-Tropsch Synthesis using a Combined STEM-EELS-EFTEM Approach".

Rodney Andrews - Presented Seminar in the UK Physics Department on Nanotube Composite Materials..

Grosso, J. presented the paper "A Mineral Processing Perspective on Stored Combustion Ash Utilization" to the Chemistry and Chemical Engineering students at the University of Witwatersrand in Johannesburg, RSA..

Henk, Kevin - teaching Geology GLY 150, Earthquakes and Volcanoes at UK Fall Semester.

Rathbone Jewell Perrone - Visited Russell Cave Elementary School to talk about fossils with the 4th grade classes. Several classroom experiments and demonstrations were completed..
